About Your ONE FOR ALL 6

Your ONE FOR ALL 6 Package contains:

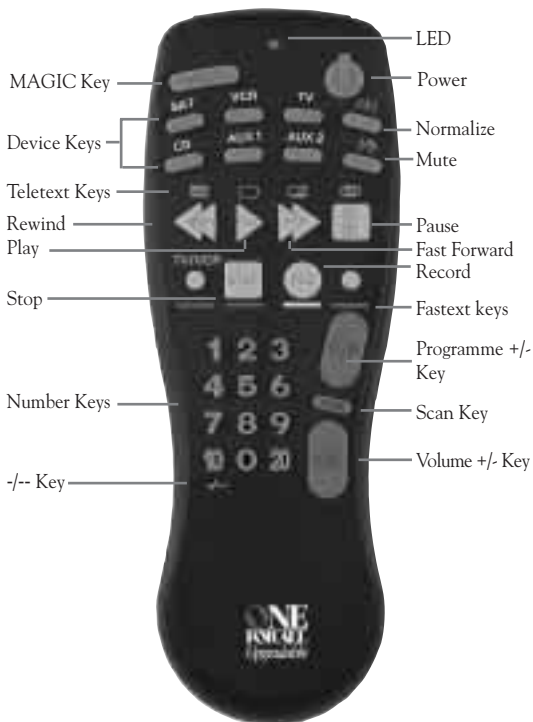

Your ONE FOR ALL 6 Universal Remote Control
Your ONE FOR ALL 6 User Guide & Code Book

Your User Guide & Code Book is divided into two parts: set-up instructions and device codes. You will need this guide to set up your new ONE FOR ALL 6 so please be sure to keep it.

Your ONE FOR ALL 6 needs four new AAA/LR03 alkaline batteries.

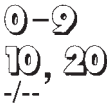

Your ONE FOR ALL 6 is designed to let you use one remote to operate your Video and Audio Equipment; any device designed to be operated by an infrared signal. You can choose any combination of 6 devices you would like to operate with your ONE FOR ALL 6. For example, 2-TVs, 1-VCR, 1-Satellite Receiver, 1-CD Player and 1-Amplifier; the choice is yours.

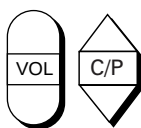

Features and Functions

Key	Function
LED	LED The LED (Light Emitting Diode) flashes red to show the remote is working.
	Power The Power key controls the same function as your original remote.
	MAGIC Key The MAGIC key is used to set up your ONE FOR ALL 6 and to access special functions.
 	Device Keys The TV, VCR, SAT, CD, AUX1 and AUX2 keys select the home entertainment device to be controlled. For example pressing the TV key allows the remote to control the functions of your Television, after pressing VCR you can operate your Video Cassette Recorder, etc. For more detailed information, please see page 9.
 	
 	
	Normalize Key The Normalize key returns all settings of your television to their standard levels.
	Mute The Mute key operates the same functions it did on your original remote.
	Number Keys The Number keys (0-9, 10, 20) provide functions just like your original remote, such as direct access programme selection. If your original remote uses one/two digit input switching (-/-- symbol), this function can be obtained by pressing the -/-- key, which is the same as the 10 key.

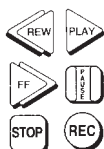

Volume, Programme

The Volume and Programme keys control the two most frequently used functions of your audio and video devices. They operate just as those on your original remote.

Scan

The Scan key allows you to easily browse through the programmes on your Television, Video Recorder, Satellite Receiver and Cable Converter. See page 16 for more information.

Video Recorder Keys

After pressing the VCR key, the Video Recorder keys operate the functions of your Video Recorder. To prevent accidental recordings, the Record key must be pressed **twice** to start recording.

Teletext/Fasttext Keys

After pressing the TV key, the top row of the Video Recorder keys are used to operate the main teletext functions. The symbols above the keys are for teletext. The Text keys are used to access the teletext functions of your Television. Of course, your Television must be teletext capable. For an explanation of the teletext symbols, please refer to page 19 of this manual.

TV/VCR

(RED)

(GREEN)

(YELLOW)

(BLUE)

After pressing the TV key, the bottom row of the Video Recorder keys marked red, green, yellow and blue allow you to access the fasttext functions of your television. Again, your television must be fasttext capable to operate these functions. For a more detailed explanation on how teletext and fasttext work, please refer to the manual of your Television set.

More on Teletext and Fasttext

The ONE FOR ALL 6 is designed to operate the basic functions of teletext (text on, text off, mix and hold/stop).

<u>Symbol</u>	<u>Title</u>	<u>Description</u>
	TEXT	Puts the Television in the teletext mode.
	TV	Switches the Television back to regular viewing mode. On some Televisions, this may be done by pressing the TEXT key several times.
	MIX	Shows both teletext and regular Television simultaneously. Also used for subtitling. On some Televisions this function is accessed by pressing the TEXT key twice.
	HOLD/ STOP	Stops changing pages.

The keys marked red, green, yellow and blue are used to access the fasttext functions of your television

Note: For a more detailed explanation of teletext and fasttext, please refer to the manual of your Television. Remember, different Televisions control teletext and fasttext features in different ways. Not all of the teletext functions may be available for your particular model.

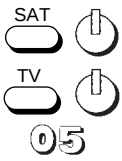

Key Sequence

You can program your ONE FOR ALL 6 to issue a sequence of commands at the press of a button. For example, you may want to turn on your Satellite and TV at the same time then set your TV to programme 5. Any sequence of commands you regularly use can be reduced to one key stroke for your convenience. You can install a sequence on any key, except for the device keys (TV, VCR, SAT, CD, AUX1 and AUX2), the Magic key and the Scan key.

To set up the sequence mentioned above on the Blue Fastext key of your ONE FOR ALL 6:

- 1  Press and **hold down the MAGIC key** until the red light blinks twice.
- 2  Press **995**.
- 3  Then press the **Blue Fastext** key. (This is the key to which the sequence will be assigned.)
- 4  Next press **SAT, POWER, TV, POWER, 05** (Enter the programme number exactly as you would on your original remote.).
- 5  To end the sequence, **press and hold MAGIC** until the ONE FOR ALL 6's red light blinks twice.
- 6  Whenever you press the Blue Fastext key, the ONE FOR ALL 6 will turn on your Satellite, turn on your TV then set your TV to programme 5.

To install any sequence, press:

MAGIC* + 995 + Key to which sequence will be assigned + Sequence of commands + MAGIC*

*Here you must hold down MAGIC until the red light blinks twice.

Shifted Sequences

You can also program your ONE FOR ALL 6 to issue a sequence of commands by pressing the Magic key followed by another key. This allows you to maintain the original function of this key in every mode. A Shifted Sequence can be set up on the following keys: Power, 10, 20, Mute and the VCR/Fasttext keys.

Using the example from the previous page, you can programme the ONE FOR ALL 6 to turn on your Satellite and TV at the same time, then set your TV to programme 5 whenever you press Magic then the Blue Fastext key. This allows you to keep the Blue Fastext function.

To set up this shifted sequence:

- 1  Press and **hold down the MAGIC** key until the red light blinks twice.
- 2  Press **995**.
- 3 
 Press and release **MAGIC** then press the **Blue Fastext** key. (This is the key to which the sequence will be assigned.)
- 4 

 Next press **SAT, POWER, TV, POWER, 05**. (Enter the programme number exactly as you would on your original remote.)
- 5  To end the sequence, **press and hold MAGIC** until the ONE FOR ALL 6's red light blinks twice.
- 6 
 Whenever you press MAGIC then the Blue Fastext key, the ONE FOR ALL 6 will turn on your Satellite, turn on your TV then set your TV to programme 5.

To install any Shifted Sequence, press:

MAGIC* + 995 + MAGIC + Key to which sequence will be assigned + Sequence of commands + MAGIC*

Clearing a Sequence:

To erase any Sequence from a key, press:

MAGIC* + 995 + Key to be cleared + MAGIC*

To erase any Shifted Sequence, press:

MAGIC* + 995 + MAGIC + Key to be cleared + MAGIC*

*Here you must hold down MAGIC until the red light blinks twice.

Notes:

- Once you program a sequence on a specific key, the sequence will work regardless of the mode (TV, VCR, SAT, CD, AUX, AUX2) you are using. If you wish to obtain the original function of this key:
 - a) Use a Shifted Sequence.
 - b) Press the Magic key before the function key. This will give you the original function for any key which does not have a "double function". For example, the volume keys also control the color settings of your TV; therefore, if a Sequence is programmed on the volume keys, the volume function cannot be accessed.
- If you have placed an extended function on a key using "Key Magic" and then include this key in a Sequence, the extended function will be included in the Sequence NOT the original function of this key.
- As a Sequence is accessible from any mode (TV, VCR, SAT, CD, AUX1, AUX2), it is handy to always start your sequence with the correct mode key.
- To avoid accidental recordings with the ONE FOR ALL 6, you must press the Record key twice to begin recording. Because of this, you cannot assign a Sequence or Shifted Sequence to the Record key.

The design of the ONE FOR ALL 6 ensures that many functions of your original remote control can be operated by the ONE FOR ALL 6, even those that do not have their own key on the ONE FOR ALL 6 keyboard. - 1 Write down the brand name(s) and model number(s) of your device(s) in the space provided before you call.
- 2 Ring our consumer help-line and explain which device(s) you would like added to your ONE FOR ALL 6.
- 3 After our customer service agent records the brand name(s) and model number(s) of your device(s), he/she will ask that you hold the ONE FOR ALL 6 to the speaker portion of your telephone (see diagram below). In doing this, the information needed for your device is transferred through the telephone into your ONE FOR ALL 6 in a matter of seconds. **Please note, cordless telephones, speaker telephones and mobile telephones are not recommended.**
- 4 After your ONE FOR ALL 6 has been upgraded by telephone, stay on the line. Our customer service agent will ensure that your ONE FOR ALL 6 is working properly with your device(s) and answer any other questions you may have.
